

[illegible][illegible]

A map of the United States where each state is represented by a hexagon. The hexagons are colored blue, gray, or red. Blue hexagons represent states with a majority of the population aged 65 and older. Gray hexagons represent states with a minority of the population aged 65 and older. The red hexagon represents the state with the highest percentage of the population aged 65 and older.

State	Color
